
Understanding Obstructive Sleep Apnea: What Every Dental Professional Should Know

Wednesday May 16, 2018 / Speaker: Dr Richard Schechtman

Course Description:

This course will provide the dental hygienist with an overview of screening for risk factors in dental patients with Obstructive Sleep Apnea(OSA). Attendees will be given tools to identify patients at risk who may be unaware of their disorder and refer them to the appropriate medical specialist.

Objectives:

1. Identify causes and risk factors for OSA.
2. Identify screening tools , serious health effects and treatment modalities.
3. Identify growth and development issues in children which can predispose for OSA.
4. Describe dental appliance therapy as a treatment modality for mild to moderate severity OSA.

Dr. Richard Schechtman is a graduate of Columbia University's Orthodontic Division, and The School of Dental Medicine at Stonybrook. Celebrating 28 years in practice, with offices in Jefferson Valley and Purchase, Dr. Richard Schechtman is the longest established Board Certified orthodontic specialist serving the Yorktown area. As Westchester and Putnam Counties' premiere SureSmile® orthodontist, Dr. Schechtman's knowledge and experience with this state-of-the-art technology creates beautiful smiles in 30% less time than conventional braces.

A published author and lecturer, Dr. Schechtman has been voted every year as one of Westchester Magazine's Best Orthodontists and has been voted by the community as Yorktown's Best in the dental/orthodontic category.
